

User bsmalls has entered too many incorrenct passwords and was locked out

bsmalls

The referenced account is currently locked out and may not be logged on to.

OK

After verifying Identity and following due process, it's time to unlock their account

The screenshot shows the Active Directory Users and Computers (ADUC) console. The 'Find Users, Contacts, and Groups' dialog box is open, with the search scope set to 'Users, Contacts, and Groups' and the location set to '_USERS'. The search criteria are 'Name: bomalls' and 'Description:'. The search results show one item found: 'bomalls' (User). Below the search results, a list of users is displayed, including 'aloy', 'amaharaj', 'amakuch', 'amasku', 'amatousek', 'amcdougall', 'amcgreedy', 'amellin', 'amolino', 'amososo', 'amuck', 'amundell', 'anail', 'anivens', 'apajak', 'apaschall', 'apiller', 'apurcell', 'arayos', 'arettig', and 'arezendes'.

Search results:

Name	Type	Description
bomalls	User	

1 item(s) found

Name	Type
aloy	User
amaharaj	User
amakuch	User
amasku	User
amatousek	User
amcdougall	User
amcgreedy	User
amellin	User
amolino	User
amososo	User
amuck	User
amundell	User
anail	User
anivens	User
apajak	User
apaschall	User
apiller	User
apurcell	User
arayos	User
arettig	User
arezendes	User

I start off by searching for their Username in ADUC in the _user OU

Looks like they are in our HR department

The screenshot shows the Active Directory Users and Computers console. The 'Find Users, Contacts, and Groups' dialog box is open, with 'Name' set to 'bsmall' and 'Description' empty. The 'Search results' pane shows one item found: 'bsmall' (User). The 'bsmall Properties' dialog box is open, showing the 'General' tab. The 'User logon name' is 'MYDOMAIN\bsmall'. The 'Unlock account' checkbox is checked. The 'Account expires' section shows 'Never' selected.

I click on "unlock account" to bypass the 15 min timeout and allow them to Log on once again

bsmall's

Welcome

Success! Our HR team memeber is now able to log on to their account.
